SS1500T Bag Closing Heat Sealer

The SS1500T **Sealer** is a workhorse when **Bag Packaging** products from the hardware industry to spices and sauces along with many other industries; these machines work very well with filling and assembly lines and can be used with existing conveyors. They are perhaps the best solution for your **heavier heat sealing, seal and trim** applications.

Machine Features:

- Seals virtually all heat sealable materials
- Stainless Steel and Anodized Aluminum Construction
- Sealed Bearings
- Trim above seal line (maximum trim 3.25")
- Trim scrap blower
- Illuminated On/Off Switch
- Food Grade Belting
- Product Support Belts
- Stainless Steel Frame
- Locking, Swivel Castors
- Adjustable Sealing Head Height
- High quality DC Gearmotor

Available Options:

- Dual Heat for heavy gauge bags
- Chilled Air Cooling for high-speed applications
- Pinch Roller system for side gusset bags
- Date Coding
- Emergency Stop Button
- Trim Scrap Chute
- Product Counter
- Digital Speed Indicator
- Process Validation
- Left to Right Feed
- 220 – 240 Volt A.C., Single Phase
- Articulated Feet
- Hydro Approval (by Special Inspection)
- Conveyor lengths & widths to suit application

Machine Specifications:

- Speed: Variable to 580 inches per minute
- Laboratory Quality Temperature Control: Variable and Tamperproof
- Sealing Bands: Low Cost, Teflon/Fiberglass.
- Seal Width: Standard 3/16" (Available from 1/8" to 7/16" at no charge)
- Electrical requirements: 115 Volt, 60Hz, Single Phase 10 Amp
